EDUCATION

Vellore Institute of Technology
Bachelor of Technology in Computer Science

Sep. 2023 - May 2027
CGPA: 8.71/10

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, HTML/CSS, SQL

Frameworks: FastAPI, Django, Next.js, React, Node.js, Tailwind CSS, Prisma ORM

Machine Learning, AI, and Data: Large Language Models (LLMs), Transformers, PyTorch, Docling, OCR, scikit-learn, Pandas, NumPy, Pydantic

Databases, APIs, and Tools: PostgreSQL, SQLite, Supabase, Google Gemini API, REST APIs, GitHub

PROJECTS

Factualize - PDF Fact-Checking Engine | *Python, FastAPI, Gemini API, Docling, SQLite, React* | [Link](#)

- Engineered a local PDF intelligence engine to eliminate hallucinations by extracting source-anchored claims and detecting cross-document contradictions via Docling OCR.
- Integrated Google Gemini via Pydantic schemas, enforcing a 15-req/day ceiling in SQLite and versioned conclusions with stale flags and 100% source auditability.

ClinicalAI - Discharge Summary Agent | *Python, FastAPI, OCR, LLM APIs, Pydantic* | [Link](#)

- Built an autonomous clinical discharge agent parsing scanned patient records with OCR, implementing a bounded 10-step ReAct loop across 4 specialized audit tools.
- Enforced zero-fabrication schemas and multi-provider failover, achieving 0.0 normalized Levenshtein edit distance by iteration 2 in clinical feedback evaluation.

ESG - Carbon Emissions Tracker | *Python, Django, React, SQLite, Pandas* | [Link](#)

- Created a full-stack sustainability platform replacing manual ESG spreadsheets, automating GHG Scope 1, 2, and 3 CO2e calculations across 3 data sources via 8 REST APIs.
- Implemented automated anomaly detection with auto-healing, bulk approval workflows, timestamped audit logs, and an interactive React dashboard for monthly analytics.

Society Maintenance Tracker | *Next.js, TypeScript, PostgreSQL, Prisma, Tailwind CSS* | [Link](#)

- Architected a full-stack maintenance ticketing platform replacing disjointed chat threads, enabling resident requests and triage across 5 categories with image uploads.
- Integrated NextAuth JWT authentication, Supabase storage, Resend alerts, and Prisma ORM, building an automated overdue tracker configurable from 1 to 90 days.

OPEN-SOURCE CONTRIBUTIONS

- Hugging Face Transformers** - Fixed `inverse_sqrt` scheduling so scheduler-specific kwargs, including timescale, are forwarded correctly.
- Prime Intellect AI Community Environments** - Added an MMMU-Pro multimodal-reasoning benchmark environment compatible with verifiers, including data loading, reward logic, and evaluation outputs.
- Future AGI** - Built three React/JSX frontend features-clickable disagreement drill-down, sortable dashboard headers with formatted dates, and task duplication with validation each covered by Jest unit tests.

CERTIFICATIONS

- Amazon Machine Learning Summer School** – Amazon, 2026
- Applied Machine Learning in Python** - University of Michigan (Coursera)
- AWS Technical Essentials** - Amazon Web Services
- Cloud Computing** - NPTEL / IIT Kharagpur (75%), 2025

EXTRACURRICULAR

Basketball Team

Captain

Jul. 2024 - Aug. 2024

Vellore Institute of Technology

- Captained a 6-player intra-college basketball squad, demonstrating leadership and decision-making under competitive pressure
- Mentored teammates as team Captain, organizing practices and fostering communication and collaboration across the squad.
